

Brief Biosketch of Ahmad Moghimikheirabadi

Ahmad Moghimikheirabadi received his B.Sc. (2011) and M.Sc. (2013) degrees in mechanical engineering from the Sharif University of Technology in Iran. He holds a Ph.D. in Materials sciences (2020) from ETH Zurich. He is currently a postdoctoral researcher in the Computational Polymer Physics group in the department of Materials of ETH Zurich. His current research interests include computational modeling with Monte Carlo- and molecular dynamics simulation techniques with applications to the area of soft matter physics.
